Only 387 hours on this highly desirable, no damage history, well-equipped APMG HondaJet is ready for immediate delivery. Aircraft has the highly desirable WIFI in the cabin as well. This aircraft comes with Honda's highest level maintenance programs—P3 on airframe and avionics and EMC2 on the engines. Aircraft began its life as a corporate plane for Honda itself. We are selling for the first owner. We are a stocking dealer that takes trades with a particular interest in single-engine turboprops. So, if 420 knots at 43,000 feet, Garmin's latest avionics, Honda luxury and big savings over a new plane is what you want, let's talk.
